A Muslim Archipelago Max L. Gross 2007 Southeast Asia continues to beckon policymakers and scholars alike to revisit its history in spite of the tomes of appraisals already written, deconstructive or otherwise. Because of a significant presence of Muslims in the region, and particularly in the wake of 9/11, it invariably attracts the attention of foreign powers drawn by the specter of terrorism and focused on rooting out radical Islamist groups said to be working with al-Qaeda. Dr. Max Gross has written an impressive account of the role of Islam in the politics of Southeast Asia, anchored by a strong historical perspective and a comprehensive treatment of current affairs. The result is very much a post-9/11 book. The origins of Jemaah Islamiyah and its connections with al-Qaeda are carefully detailed. Yet, unlike much of the post-9/11 analysis of the Muslim world, Dr. Gross's research has been successful in placing the phenomenon of terrorism within a larger perspective. While recognizing that al-Qaeda's influence on regional terror networks remains unclear, it behooves us to be reminded that, regardless of the nature and extent of the linkages, to dismiss terrorism as a serious threat to security would be naive to the point of recklessness. The Muslim Archipelago is a profoundly Islamic region, and Jemaah Islamiyah is only a small portion of this reality. The attention Dr. Gross pays to ABIM in Malaysia, of which I was a part, and the civil Islam movement in Indonesia, of which the late Nurcholish Madjid was a principal spokesman, is greatly appreciated. Those unfamiliar with the background and role of the traditional Islamic PAS party in Malaysia, as well as the Darul Islam movement in Indonesia, will find the author's account highly beneficial. The MNLF, the MILF, and Abu Sayyaf in the Philippines, as well as the various Islamic movements in southern Thailand, are also carefully explained.

On Becoming a Rock Musician H. Stith Bennett 2017-05-30 In the 1960s and 1970s, becoming a rock musician was fundamentally different than playing other kinds of music. It was a learned rather than a taught skill. In *On Becoming a Rock Musician*, sociologist H. Stith Bennett observes what makes someone a rock musician and what persuades others to take him seriously in this role. The book explores how bands form; the backstage and onstage reality of playing in a band; how bands promote themselves and interact with audiences and music professionals like DJs; and the role of performance.

Guatemala-U.S. Migration Susanne Jonas 2015-01-05 Guatemala-U.S. Migration: Transforming Regions is a pioneering, comprehensive, and multifaceted study of Guatemalan migration to the United States from the late 1970s to the present. It analyzes this migration in a regional context including Guatemala, Mexico, and the United States. This book illuminates the perilous passage through Mexico for Guatemalan migrants, as well as their settlement in various U.S. venues. Moreover, it builds on existing theoretical frameworks and breaks new ground by analyzing the construction and transformations of this migration region and transregional dimensions of migration. Seamlessly blending multiple sociological perspectives, this book addresses the experiences of both Maya and ladino Guatemalan migrants, incorporating gendered as well as ethnic and class dimensions of migration. It spans the most violent years of the civil war and the postwar years in Guatemala, hence including both refugees and labor migrants. The demographic chapter delineates five phases of Guatemalan migration to the United States since the late 1970s, with immigrants experiencing both inclusion and exclusion very dramatically during the most recent phase, in the early twenty-first century. This book also features an innovative study of Guatemalan migrant rights organizing in the United States and transregionally in Guatemala/Central America and Mexico. The two contrasting in-depth case studies of Guatemalan communities in Houston and San Francisco elaborate in vibrant detail the everyday experiences and evolving stories of the immigrants' lives.

There Are Two Sexes Antoinette Fouque 2015-02-24 Antoinette Fouque cofounded the Mouvement de Libération des Femmes (MLF) in France in 1968 and spearheaded its celebrated *Psychanalyse et Politique*, a research group that informed the cultural and intellectual heart of French feminism. Rather than reject Freud's discoveries on the pretext of their phallocentrism, Fouque sought to enrich his thought by more clearly defining the difference between the sexes and affirming the existence of a female libido. By recognizing women's contribution to humanity, Fouque hoped "uterus envy," which she saw as the mainspring of misogyny, could finally give way to gratitude and by associating procreation with women's liberation she advanced the goal of a parity-based society in which men and women could write a new human contract. The essays, lectures, and dialogues in this volume finally allow English-speaking readers to access the breadth of Fouque's creativity and activism. Touching on issues in history and biography, politics and psychoanalysis, Fouque recounts her experiences running the first women's publishing house in Europe; supporting women under threat, such as Aung San Suu Kyi, Taslima Nasrin, and Nawal El Saadawi; and serving as deputy in the European Parliament. Her theoretical explorations discuss the ongoing development of feminism, a field she initiated, and, while she celebrates the progress women have made over the past four decades, she also warns against the trends of counterliberation: the feminization of poverty, the persistence of sexual violence, and the rise of religious fundamentalism.

Hades, Argentina Daniel Loedel 2021-01-15 'An astonishingly powerful novel about the complex nature of guilt' Colm Tóibín 'Remarkable . . . It will stay with me for a very long time' Kamila Shamsie A decade after fleeing for his life, a man is pulled back to Argentina by an undying love. In 1976, Tomás Orilla is a medical student in Buenos Aires, where he has moved in hopes of reuniting with Isabel, a childhood crush. But the reckless passion that has long drawn him is leading Isabel ever deeper into the ranks of the insurgency fighting an increasingly oppressive regime. Tomás has always been willing to follow her anywhere, to do anything to prove himself. Yet what exactly is he proving, and at what cost to them both? It will be years before a summons back arrives for Tomás, now living as Thomas Shore in New York. It isn't a homecoming that awaits him, however, so much as an odyssey into the past, an encounter with the ghosts that lurk there and a reckoning with the fatal gap between who he has become and who he once aspired to be. Raising profound questions about the sometimes impossible choices we make in the name of love, *Hades, Argentina* is a gripping, ingeniously narrated literary debut.

Islamic Economic Systems Farhad Nomani 1994 This major new study examines the central tenets of Islamic economics, both in theory and in practice. The authors pinpoint the uniqueness of the Islamic approach, both in its conception of the world's resources and in its attitude to human endeavour. Their book illuminates the distinctive nature of an economics which is based neither on meeting the demands of the individual consumer, nor on increasing the level of general welfare, but on maximising the pleasure of God. The different schools of Islamic thought are then compared and their interpretations analysed in terms of their approaches to plan and market, centralisation and decentralisation, property rights, profit and social obligation. A detailed historical survey follows of the experience of four very different Muslim countries: Libya, Saudi Arabia, Pakistan and Iran. The authors examine how the implementation of Islamic economic solutions has worked out in reality, often in the context of a tense political situation. They look at the practicality of such solutions in the present day, assessing both their economic performance and their success in guiding society towards the Islamic ideal. The book as a whole allows the reader to grasp the multifarious nature of Islamic thought in economic matters, its contradictory and often contentious character, and the uses to which Islam has been put by governments with clearly diverse aims. Students of economics and of the Middle East will find it a useful guide to the new terms in which an old and fierce debate is being conducted.

Africa, Empire and Globalization Toyin Falola 2013-11-01 This paperback version of *Africa, Empire and Globalization* has replaced the jacketed hardback version published in 2011. *Africa, Empire and Globalization* is a set of original essays in honor of the distinguished historian, Professor A. G. Hopkins, whose career of over fifty years covers three main areas that are global in reach, but connect to ideas that are generated in such major cities as Lagos and London. The volume celebrates the key principles that have emerged from the cumulative body of Hopkins' work: searching for originality; extending the frontier of knowledge through new data and interpretations; questioning received assumptions and wisdom; promoting conversations between multiple, often divergent, sets of ideas from different disciplines; presenting ideas such that those within and outside of the academy can benefit; and applying theories drawn from various disciplines to organize the evidence and to present it in digestible form. The first section covers Africa, with essays on the economic history of Lagos and West Africa, the connections between economic change and imperialism, and the role of Africa in the world economy, including the trans-Saharan, trans-Atlantic, and the Indian Ocean World. The role of Africans in creating wealth and responding to new economic opportunities receives prominent attention in some chapters. In the second section, new topics on imperialism are explored, such as the British expansion to India, the role of trade in the Gambia, and the overall impact of the empire. Hopkins' idea of "gentlemanly capitalism" generates considerable debate in various chapters, and is also applied to various contexts and places. The current issues around the theme of globalization are developed in the third section in terms of the relevance of the concept, the contributions that historians can make to the subject, the arguments for and against, and its impact on capitalism and democracy. From peace to war, from economic prosperity to economic decline, from the use of power to nationalist resurgence, the section looks at the dominant concerns of our time. Hopkins' career, as the volume amply demonstrates, is rich, held together by interest in the connections between the local and the national, the national and the regional, and the regional and the global. In this interconnecting the world, a philosophy of history emerges—how economic forces shape political realities. His work, while being quite broad-ranging spatially, has remained typically focused on economic history, for the most part. This emphasis will be a large part of what he passes on to future scholarly generations. As we pay various tributes through the original essays collected here, we believe that, for our shared benefit, Professor A. G. Hopkins has demonstrated how to remain candidly involved in the

debates over one's work, to defend oneself when appropriate, to reconsider one's work when necessary, and continually to build upon one's own body of work in compelling and relevant version. This book is part of the African World Series, edited by Toyin Falola, Jacob and Frances Sanger Mossiker Chair in the Humanities, University of Texas at Austin.

Islam Between Divine Message and History ?Abd al-Maj?d Sharaf? 2005-01-01 "This work attempts to introduce the characteristics of the Mohammedan Mission, with the aspiration to be faithful to its essential purposes and to historical truth at the same time. The author thus illustrates the different ways in which people have understood the Mission and the reasons that led them to those various interpretations. The book presents several alternative interpretations that actually existed but did not enjoy widespread acceptance and popularity." "This book looks to the future, attempting to respond to the needs of those who are rapidly becoming integrated into modern life, and to the new generations aspiring to an Islamic thought adapted to these processes."--Jacket.

Rebuilding Buddhism Sarah LeVine 2007-09-30 Rebuilding Buddhism describes in evocative detail the experiences and achievements of Nepalis who have adopted Theravada Buddhism. This form of Buddhism was introduced into Nepal from Burma and Sri Lanka in the 1930s, and its adherents have struggled for recognition and acceptance ever since. With its focus on the austere figure of the monk and the biography of the historical Buddha, and more recently with its emphasis on individualizing meditation and on gender equality, Theravada Buddhism contrasts sharply with the highly ritualized Tantric Buddhism traditionally practiced in the Kathmandu Valley. Based on extensive fieldwork, interviews, and historical reconstruction, the book provides a rich portrait of the different ways of being a Nepali Buddhist over the past seventy years. At the same time it explores the impact of the Theravada movement and what its gradual success has meant for Buddhism, for society, and for men and women in Nepal.

Muslim Extremism in Egypt Gilles Kepel 2003-05 "Perhaps more than any other, this book gives the background necessary to understand the purpose and mindset of today's religious radicals. In this classic study of the roots of Islamic extremism, Gilles Kepel demonstrates the pivotal role of the Egyptian connection. He skillfully traces the story of Islamic anti-modernism in Egypt from the early part of the 20th century to its tragic involvement in some of the most violent incidents in recent years, including the terrifying attacks on the World Trade Center in 1993 and 2001. Kepel's treatment is even-handed and sensitive, though the world he uncovers is the dark side of today's global culture."—Mark Juergensmeyer, author of *Terror in the Mind of God: The Global Rise of Religious Violence*

The History of al-Tabari Vol. 13 Muhammad ibn Yariir al-Tabari 1989-01-01 This volume deals with the aftermath of the decisive battle at al-Qadisiyyah described in the previous volume. First, the conquest of southern Iraq is consolidated; in rapid succession there follow the accounts of the battles at Burs and Babil. Then in 16/637 the Muslim warriors make for the capital al-Mada'in, ancient Ctesiphon, which they conquer after a brief siege. The Persian king seeks refuge in Hulwan, leaving behind most of his riches, which are catalogued in great detail. In the same year the Muslim army deals the withdrawing Persians another crushing blow at the battle of Jalula'. This volume is important in that it describes how the newly conquered territories are at first administered. As the climate of al-Mada'in is felt to be unwholesome, a new city is planned on the Tigris. This is al-Kufah, which is destined to play an important role as the capital city of the fourth caliph, 'Ali. The planning of al-Kufah is set forth in considerable detail, as is the building of its main features--the citadel and the great congregational mosque. After this interlude there follow accounts of the conquests of a string of towns in northern Mesopotamia, which bring the Muslim fighters near the border with al-Jazirah. That region is conquered in 17/638. The history of its conquest is preceded by an account of the Byzantines' siege of the city of Hims. Also in this year, 'Umar is recorded to have made a journey to Syria, from which he is driven back by a sudden outbreak of the plague, the so-called Plague of 'Amawas. The scene then shifts back to southwestern Iran, where a number of cities are taken one after another. The Persian general al-Hurmuzan is captured and sent to Medina. After this, the conquest of Egypt--said to have taken place in 20/641--is recorded. The volume concludes with a lengthy account of the crucial battle at Nihawand of 21/642. Here the Persians receive a blow that breaks their resistance definitively. This volume abounds in sometimes very amusing anecdotes of man-to-man battles, acts of heroism, and bizarre, at times even miraculous events. The narrative style is fast-moving, and the recurrence of similar motifs in the historical expose lends them authenticity. Many of the stories in this volume may have begun as yarns spun around campfires. It is not difficult to visualize an early Islamic storyteller regaling his audience with accounts that ultimately found their way to the file on conquest history collected by Sayf b. 'Umar, al-Tabari's main authority for this volume. A discounted price is available when purchasing the entire 39-volume History of al-Tabari set. Contact SUNY Press for more information.

Algerians Without Borders Allan Christelow 2012 Algerian diaspora is examined from reasons based on military service, asylum seeking, captivity and imprisonment, travel for commerce, study, or religious purpose, and labor migration. The author reviews these factors and provides an in-depth analysis of the results of these crossings, from problematic efforts to secure external support for political projects through building interfaith dialogue and the exploration of new ideas to the emergence of new communities. He also investigates the return of border crossers to Algeria and the challenges they face in adapting to new environments, whether negotiating alliances, engaging in dialogue, or simply seeking legal acceptance. He concludes with a discussion of the last few decades of Algerian history. He explores how Algerian intellectuals operated outside of the country's borders, spurred on by the rise of Islamism as well as by freer dialogues with Western powers, specifically Britain and the United States. The result is an exciting new history of Algeria that demonstrates just how much its citizens' engagement with other societies has transformed the country.
